### Marble Dust Repair Kits

#### Description

A blend of marble dust and medusa cement combined with a unit of acrylic latex.

#### Typical Uses

Patching concrete pools

#### Features

- Can be used vertically and horizontally
- Can be painted in 4 days

#### Limitations

- Must be applied when temperature surface and air are above 10° C (50° F)
- Keep kit from freezing
- Apply to clean sound concrete only  
1 unit covers 8 sq ft approximately  
1/8" thick

#### Application

Use supplied liquid to slightly dampen the surface to be repaired. Pour the remaining contents of 10 oz jar into a large container and add 10 oz of clean water. Add most of the 20 oz Acrylic and water mix into powder and mix well with a slow speed mixer. Add the rest of the liquid and more water if necessary to obtain desired consistency. Let stand 10 minutes, then remix and use.

#### Clean Up

Clean tools on warm soapy water

#### Net Contents

Liquid 10 oz (300 ml)  
Powder 8.8 lbs (4 kg)

#### Safety Precautions

Please refer to product MSDS sheet.
