EMBE® TERRAZZO SEALER

ACRYLIC FINISH COAT

Description

EMBE® Terrazzo Sealer is a low viscosity, clear acrylic finish coating used to seal terrazzo flooring systems.

Typical Uses

- As a sealer for newly installed terrazzo flooring systems
- As a sealer for new cement terrazzo or existing epoxy, polyacrylate or cement terrazzo

Features

- Imparts excellent color retention to chips and cement binders
- Excellent abrasion resistance
- Enhanced chemical resistance
- Helps prevent potential staining of terrazzo surface
- Suitable for epoxy, polyacrylate or cement terrazzo systems

Limitations

- Substrate surface must be dry
- Apply test patch prior to full application
- Some solvent odor during installation
- Certain staining materials, especially those containing oil, may cause improper bonding
- Keep away from fire and flame
- DO NOT SMOKE while using this product

Application

- Ensure adequate ventilation during installation
- Applied with lambs wool applicator in one or two thin coats
- When applied as a sealer over new terrazzo flooring systems, the surface to be coated must be fully cured, clean and free of all contaminants detrimental to proper bonding
- For best results when applied over existing substrates for the first time, all existing sealers and waxes must be stripped. Substrate must be clean, sound, dry and free from contaminants detrimental to proper adhesion

Theoretical Coverage

- Coverage rate: 300 to 400 ft²/gallon (7.3 to 9.8 m²/liter)

Physical Properties

Abrasion Resistance ASTM D 4060	12 mg
---	-------

Packaging

5-gallon (18.93 Litres) pails

Safety Precautions

Please refer to product MSDS sheet.
